As an integrative medicine clinic at a U.S. Air Force Base we utilize multiple modalities including the Phoenix Thera-Lase System on a daily basis. We have found it very effective for decreasing pain in several conditions and also to promote healing. Patients love the soothing heat it provides to the treated area and it is extremely user friendly for clinicians. The company provided in person training to ensure we had a good understanding of its uses and applications, as well as how to best apply treatment to patients. Because the laser is so easy and effective, without requiring lengthy treatment times, we are able to increase our patient appointments while providing the care and results our patients are seeking.
