

My name is Derek Willard and I'm the manager at Rebuild Recovery powered by 1SportsRX in Tampa Florida. We have had the Phoenix Thera-Lase System in our PT clinic/Recovery Center for 2 years now and I do not know where some of our athletes would be without it. Whether we use its ability to break down scar tissue, drastically reduce soft tissue injury recovery time, or just as an amazing heating modality, the results never cease to amaze me. We have cut dozens of collegiate and professional athletes down time from acute hamstring and lateral ankle injuries from potentially months, to less than a couple weeks. I can't understate how important the Phoenix Thera-lase system is to all of our athletes. We have over 100 high school varsity football players we treat here weekly who swear by the Laser to keep them on the field week after week.

A handwritten signature in black ink, appearing to read "Derek Willard". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.
