Phoenix Thera-Lase System Capability Statement:
CAGE Code: 9A8H2
SAM Unique Entity ID (UEI): DVM6LDQ54NL5

Phoenix Thera-Lase System https://phoenixthera-lase.com/ 18 years in business is a patented wavelength laser which offers multiple competitive advantages over other Class IV lasers. The Phoenix Thera-Lase provides deeper penetration, higher power and wider beam diameter which provides superior fast relief and healing for pain, accelerated wound healing and tissue repair related to soft tissue injuries. Our goal as a company is to offer safe, highly effective products that have positive outcomes for patients and an alternative to the opioid crisis.

Phoenix Thera-Lase 75-watt System Specs
Classification: Class IV
Max energy output: 75 watts
Wavelength: 1275 nm
Treatment Diameter: 7-8 inches
Treatment Duration: 10 min on primary area Weight: 45 lbs.
Guide: Aiming Beam
Fiber: 600 um fiber coupled
Diode Module
